

# Dmitry Barsukov

---

CONTACT INFORMATION	Residence: Moscow, Russia	Telegram: @riZZZhik (preferred) Email: riZZZhik@gmail.com GitHub: github.com/riZZZhik
PROFESSIONAL SUMMARY	Experienced Machine Learning Engineer with 5+ years in AI solutions focusing on Text-to-Speech, Computer Vision, and Deep learning optimization.	
RESEARCH AREAS OF INTEREST	Machine Learning; Deep Learning Model Optimization; Computer Vision; Speech Technologies	
PROGRAMMING SKILLS	<b>Languages:</b> Python (advanced), Go (advanced), Tritonlang (average), C/C++ (average), CUDA C++ (average) <b>Deep Learning Frameworks:</b> PyTorch, TensorFlow, Keras <b>Optimization frameworks:</b> TensorRT, Torch compile, ONNX Runtime, Tritonlang, OpenVINO, Triton Server <b>Observability frameworks:</b> Prometheus, Grafana, Kibana, Opensearch, Jaeger, WandB, ClearML <b>Technical skills:</b> OpenCV, ffmpeg, TorchAudio, Docker, Kubernetes, Git, CI/CD, Observability, Linux	
LANGUAGES	Russian (native); English (advanced)	
EMPLOYMENT AND EXPERIENCE	<div><div><b>MTS AI</b></div><div>Senior Machine Learning Engineer</div><div>June 2022 - Present</div><div>Development of a Text-to-Speech service that surpasses leading competitors in the Russian language. Main responsibilities: model inference optimization, deployment, and supporting business logic. Achieved <b>0.12</b> p95 latency and <b>80</b> RPS on a single <b>2g.20Gb</b> A100 instance. <b>Technologies:</b> Python, Golang, PyTorch, WandB / ClearML, Triton Server, Observability, Docker + Kubernetes, Git + CI/CD</div></div> <div><div><b>SIRIN</b></div><div>Senior Machine Learning Developer</div><div>March 2021 - January 2022</div><div>Development of a service using computer vision for automatic opening of car barriers. Main responsibilities: researching model architectures, finding/generating datasets, training, and deploying models. Achieved <b>99%</b> accuracy in recognizing Russian license plates and <b>90%</b> accuracy in recognizing license plates overall with <b>0.5</b> latency on an <b>8-core</b> CPU. <b>Technologies:</b> Python, PyTorch, OpenCV, Docker + Kubernetes, OpenVINO + Triton Server, Observability (Grafana, Kibana, Prometheus), Git + CI/CD</div></div> <div><div><b>ITMO University</b></div><div>Machine Learning Developer</div><div>January 2020 - December 2020</div><div>End-to-end development of a service for building facade segmentation. <b>Technologies:</b> Python, TensorFlow + Keras, OpenCV, Docker, Git</div></div>	

**SPIIRAS**

August 2018 - October 2020

Middle Machine Learning developer

End-to-end development of a service for recognizing the faces of employees.

**Technologies:** Python, TensorFlow + Keras, RealSense DepthCamera, OpenCV, Docker, Git

## EDUCATION

**Higher School of Economics**

Moscow, Russia (Remote)

Applied Mathematics and Information Science.

Bachelor's degree
