Experience

MTS AI

Moscow, Russia

Middle Python Machine Learning Developer

June 2022 - Present

Development of a Text-to-Speech service that outperforms top competitors in the Russian language.

Technologies: Python, PyTorch, WandB / ClearML, Triton Server, Observability, Docker + Kubernetes, Git + CI/CD

Sirin

Remote

Middle Python Machine Learning Developer

March 2021 - January 2022

Development of a service using computer vision for automatic opening of car barriers.

Technologies: Python, PyTorch, OpenCV, Docker + Kubernetes, OpenVINO + Triton Server, Observability (Grafana, Kibana, Prometheus), Git + CI/CD

ITMO University

Saint-Petersburg, Russia

Python Machine Learning Developer

January 2020 - December 2020

Development of a service for building facade segmentation.

Technologies: Python, TensorFlow + Keras, OpenCV, Docker, Git

SPIIRAS

Saint-Petersburg, Russia

Junior, then Middle Python Machine Learning developer

August 2018 - October 2020

Development of a facial recognition service for door access.

Technologies: Python, TensorFlow + Keras, RealSense DepthCamera, OpenCV, Docker, Git

Education

Higher School of Economics

Moscow, Russia (Remote)

Applied Mathematics and Information Science. GPA: 6/10

September 2023 - Present

St Petersburg University Academic Gymnasium

Saint-Petersburg, Russia

Faculty of Physics and Mathematics

September 2020 - June 2023

Skills & Interests

Technical: Python, C++, OpenCV, TensorFlow, Keras, PyTorch, OpenVINO, Triton Server, Docker, Kubernetes, Git, CI/CD, Observability, Linux

Language: Russian (Native), English (Advanced)
